Resource Person: Prof Varun Jain, Asstt Prof, LPU

Topic: Managing Work Related Stress

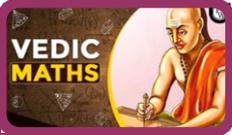

Resource Person: Psychiatrist Dr Rahul Saini

HOD - FACULTY MEMBERS MEETINGS 26 APRIL 2025

Planning lessons and teaching strategies together....

Mathematics the Vedic Way...

Vedic Mathematics is an ancient Indian system of solving arithmetical problems very quickly and easily.

Based on 16 sutras and 13 sub sutras, mentioned in the Atharvaveda, it is said to have been re discovered by Jagatguru Swami Bharati Krishna Tirthaji Maharaj.

VEDIC MATH SUTRA 1:EKĀDHIKENA PŪRVENA (By one more than the previous one)

Squaring numbers ending with 5

For example:

To find the square of 95 ie 95^2

Steps:

1. Separate the last digit (which is always 5)
Here: The tens digit = 9
The units digit = 5
2. Multiply the tens digit by its successor
 $9 \times 10 = 90$
3. Simply put 25 at the end of the result

ie: 90 25

So : $95^2 = 9025$

Now lets find the square of 85 ie 85^2

Here the tens digit is 8 and the units digit is 5
Multiplying the tens digit by its successor we get $8 \times 9 = 72$
Now putting 25 next to the result we get : $72 \ 25$

So $85^2 = 7225$

EASY AND FUN ISN'T IT????

Now try it with some other numbers and enjoy !
